1. Service. Customer will begin receiving natural gas at the time of the first scheduled meter reading by the Local Distribution Utility ("Utility") or, if applicable, after the date on which Customer is eligible to participate in the utility ESCO Referral Program. **NORTH AMERICAN POWER AND GAS, LLC's ("NAP")** supply of natural gas to Customer shall continue pursuant to these terms and conditions as well as any "welcome letter", which together constitute the entire agreement (hereinafter the "Agreement"). By executing, approving and/or by not rescinding this Agreement under NAP's terms or the Utility's ESCO Referral Program, Customer agrees to initiate service and begin enrollment with NAP under this Agreement. NAP is approved by the New York State Public Service Commission ("NYPSC") to act as an Energy Service Company ("ESCO") and has entered into a service agreement with Customer's Utility. The NYPSC does not regulate the price of natural gas or other charges found in this Agreement. Customer is at least 18 years old and fully authorized to enter into this Agreement. NAP is a retail marketer of natural gas and not Customer's LDU. Customer's LDU will continue to perform the following functions; deliver natural gas, read meter, send bill, and make repairs. LDU will also respond to emergencies and provide other traditional utility services. Customer understands that Customer is not required to choose a competitive supplier, and may continue to have the LDU supply Customer natural gas supply service.

2. Term. The agreement will be fixed for the period stated in the Welcome Letter and Disclosure Statement. The term shall commence as of the date the change of provider to **NAP** is deemed effective by the Utility. Upon completion of any initial or renewal term of this Agreement, the Agreement will automatically continue on a month-to-month variable market based rate on the same terms as contained herein. However, if NAP materially changes its terms and conditions, other than variable market based pricing, NAP must obtain customer's authorization (written or verifiable oral) after customer has received a written notification of the new terms not less than 30 days nor more than 60 days prior to the date of the new terms and conditions (the "Renewal Term"). Customer shall have 3 business days from receipt of the first billing statement of Customer's Renewal Term to reject renewal terms and cancel renewal agreement. The Customer may provide written notice of termination to NAP at its email or mailing address or call NAP as outlined in the Contact Information section of this Agreement. Customer may also call their delivery company to terminate the agreement. NAP may terminate this Agreement by providing 15 days' written notice to the Customer.

3. Open Price. Each month the Customer's bill will be calculated by multiplying (i) the price of natural gas by (ii) the amount of natural gas used in the billing cycle plus (iii) applicable taxes, fees, and/or charges levied by the Utility for distribution and other services. The price per **<<\$unit of measure>>** for natural gas sold under this Agreement shall be market based and variable price calculations are based on the method stated above to include prices for commodity, transportation, balancing fees, storage charges, **NAP's** fees, profit, swing charges, and any other charges imposed by a utility, pipeline, or other entity having such authority to impose any such charge, plus applicable taxes, and any other charges or fees imposed by the utility or other entity having such authority to impose any such charges.

4. Agency. Customer hereby appoints **NAP** as its agent for the purposes of acquiring the supplies necessary to meet all of the Customer's natural gas needs and arranging to deliver natural gas to the Customer.

5. Title. All natural gas sold under this Agreement shall be delivered to a location considered the "Point of Delivery," which for natural gas shall be at the utility's designated city gate, and shall constitute the point at which the sale occurs and title passes from **NAP** to the Customer.

6. Measurement. The measurement of the quantity of natural gas delivered under this Agreement shall be determined by the meter readings and/or estimates performed by the Utility.

7. Billing and Payment. Unless otherwise agreed to in writing, **NORTH AMERICAN POWER** or Utility will invoice monthly for natural gas supplied under this Agreement and/or in accordance with the Utility's policies,

procedures and tariff. Customer will pay each invoice in full within twenty (20) calendar days of the invoice date or be subject to a late payment charge of 1.5% per month. Customer should receive a single invoice for both commodity and delivery costs from the Utility. Customer's payments remitted in response to a consolidated bill shall, to the extent required, be pro-rated in accordance with procedures adopted by the New York State Public Service Commission (PSC). In the event Customer fails to provide payment when due, **NORTH AMERICAN POWER** shall have the right to terminate commodity service upon fifteen (15) calendar days' written notice to the Customer. Failure to make full payment of **NORTH AMERICAN POWER** charges due on any consolidated bill prepared by the Utility for **NORTH AMERICAN POWER** will be grounds for disconnection of utility services and commodity service in accordance with NYPSC rules and regulations on the termination of service to residential customers. Customer payments remitted in response to a consolidated bill shall be pro-rated (when so required) in accordance with procedures adopted by the New York State Department of Public Service (the "DPS"). A **\$25** fee will be charged for all returned payments. **NORTH AMERICAN POWER reserves the right to pass along and legal notice is hereby given to any increases in charges applied to NORTH AMERICAN POWER (e.g. accounts receivable billing charges, etc.), which are a result of any present and/or future Public Service Commission, utility, pipeline, and/or FERC (Federal Energy Regulatory Commission) action and/or any other body having authority. NAP will provide customer 30 days written notices of any such increase in charges.**

8. Cancellation Process. If Customer is a residential customer, Customer may cancel within 3 business days of receipt of signing this agreement (the "Cancellation Period") without penalty or cancellation fee by contacting NAP at its contact information listed in the Contact Information section. If cancellation is not requested within 15 days of the next meter read, the Customer may request a special meter read which is typically subject to a service charge. Customer is liable for all of **NORTH AMERICAN POWER's** charges while Customer may be returning to the LDU or selecting another supplier. A bill will be rendered in approximately twenty (20) days after the final scheduled meter reading or if access is unavailable, an estimate of consumption will be used in the bill, which will be trued up subsequent to the final meter reading.

9. Acceptance and Amendments. **NAP** may amend the terms of this Agreement at any time, consistent with any applicable law, rule or regulation, by providing notice to Customer of such amendment at least thirty (30) days prior to the effective date thereof.
