Service. Customer will begin receiving electricity at the time of the first scheduled meter reading by the Local Distribution Utility (“LDU”) or, if applicable, after the date on which Customer is eligible to participate in the utility ESCO Referral Program. NORTH AMERICAN POWER AND GAS, LLC (“NAP” and/or “North American Power”) shall supply the customer’s electricity pursuant to this Agreement. By executing, approving and/or not rescinding this Agreement under NAP’s terms or the utility’s ESCO Referral Program, Customer agrees to initiate service and begin enrollment. By enrolling with NAP, Customer acknowledges that this agreement is an agreement to initiate electricity supply services with NAP. NAP is approved by the New York State Public Service Commission (“NYPSC”) to act as an Energy Service Company (“ESCO”) and has entered into a service agreement with Customer’s Utility. The NYPSC does not regulate the price of electricity or other charges found in this Agreement. Customer is at least 18 years old and fully authorized to enter into this Agreement. NAP is a retail marketer of electricity and not Customer’s LDU. Customer’s LDU will continue to perform the following functions; deliver electricity, read meter, send bill, and make repairs. LDU will also respond to emergencies and provide other traditional utility services. Customer understands that Customer is not required to choose a competitive supplier, and may continue to have the LDU supply Customer’s electricity.

Term. The term of this Sales Agreement will begin on the next applicable meter read date after the LDU processes Customer’s enrollment and will continue until the end date specified in the Disclosure Statement above unless this Sales Agreement is renewed or terminated pursuant to Termination section of this Agreement. Upon completion of any initial or renewal term of this Agreement, the Agreement will automatically renew on a month-to-month variable market rate basis on the same terms as contained herein. However, if NAP materially changes its terms and conditions, other than variable market based pricing, NAP must obtain customer’s authorization (written or verifiable oral) after customer has received a written notification of the new terms not less than 30 days nor more than 60 days prior to the date of the new terms and conditions (the “Renewal Term”). Customer shall have 3 business days from receipt of the first billing statement of customer’s Renewal Term to reject renewal terms and cancel renewal agreement. The Customer may provide written notice of termination to NAP at its email or mailing address or call NAP as outlined in the Contact Information section of this Agreement. Customer may also call their delivery company to terminate the agreement. NAP may terminate this Agreement by providing 15 days’ written notice to the Customer.

Open Price. Approximately each month the customer bill will be calculated by multiplying (i) the price of electricity by (ii) the amount of electricity used in the billing cycle plus (iii) applicable taxes, fees, and charges levied by the utility for distribution and other services. NORTH AMERICAN POWER’s price for all electricity sold under this Agreement shall be fixed for the term indicated on the Disclosure Statement above, and is guaranteed not to change for the term listed on the Disclosure Statement or any renewal notice. Variable market based rates will be calculated on the method stated above to include any market prices for commodity, transportation, balancing fees, storage charges, NORTH AMERICAN POWER fees, profit, line losses plus applicable taxes, and any other charges or fees imposed by the utility or other entity having such authority to impose any such charges. .

Agency. Customer hereby appoints NAP as agent for the purposes of acquiring the supplies necessary to meet Customer’s electricity needs and arranging to deliver electricity to customer.

Title. All electricity sold under this Agreement shall be delivered to a location considered the “Point of Delivery,” which for electricity shall be at the NY ISO NORTH AMERICAN POWER load bus, and shall constitute the point at which the sale occurs and title passes from NORTH AMERICAN POWER to the Customer.

Measurement. The measurement of the quantity of electricity delivered under this Agreement shall be determined by the meter readings and/or estimates performed by the LDU.

Billing and Payment. Unless otherwise agreed to in writing, NAP or LDU will invoice monthly for electricity supplied under this Agreement. Customer will

pay each invoice in full within twenty (20) calendar days of the invoice date or be subject to a late payment charge of 1.5% per month. In most cases Customer should receive a single invoice for both commodity and delivery costs from the LDU. Customer payments remitted in response to a consolidated bill shall, to the extent required, be pro-rated in accordance with procedures adopted by the NYPSC. In the event Customer fails to provide payment when due, NAP shall have the right to terminate commodity service upon fifteen (15) calendar days written notice to the Customer. Failure to make full payment of NAP charges due on any consolidated bill prepared by the LDU for NAP will be grounds for disconnection of utility services and commodity service in accordance with NYPSC rules and regulations on the termination of service to residential customers. Customer payments remitted in response to a consolidated bill shall be pro-rated (when so required) in accordance with procedures adopted by the NYPSC. A \$25 fee will be charged for all returned payments. **NAP reserves the right to pass along increases in charges which are a result of Public Service Commission, LDU, NY-ISO, any regional transmission authority, FERC (Federal Energy Regulatory Commission) orders or actions or any other body having authority. NAP will provide customer 30 days written notices of any such increase in charges.**

Cancellation Process. If Customer is a residential customer, Customer may cancel within 3 business days of receipt of this agreement (the “Cancellation Period”) without penalty or cancellation fee by contacting NAP at its contact information listed in the Contact Information section. If cancellation is not requested within 15 days of the next meter read, the Customer may request a special meter read which is typically subject to a service charge. Customer is liable for all of NORTH AMERICAN POWER’s charges while Customer may be returning to the LDU or selecting another supplier. A bill will be rendered in approximately twenty (20) days after the final scheduled meter reading or if access is unavailable, an estimate of consumption will be used in the bill, which will be tried up subsequent to the final meter reading. If Customer terminates this Agreement during the Initial Term or any subsequent Renewal Term after the applicable cancellation period, Customer will pay an early termination cost recovery fee (“ETF”). Such fee will be ten dollars (\$10.00) per month for each month remaining on the Agreement, but will not exceed; one hundred dollars (\$100.00) for any Agreement with a remaining term of less than 12 months; or two hundred dollars (\$200.00) for any Agreement with a remaining term of more than 12 months.

Acceptance and Amendments. NORTH AMERICAN POWER may amend the terms of this Agreement (other than price) at any time, consistent with any applicable law, rule or regulation, by providing notice to Customer of such amendment at least thirty (30) days prior to the effective date thereof. Any change to this Agreement, other than the Open Price provision, shall require the Customer’s affirmative consent, documented under one of the three methods specified in the NYPSC Uniform Business Practices.

If NORTH AMERICAN POWER is rendered unable, wholly or in part, by Force Majeure to perform or comply with any obligations or conditions of this Agreement, we shall give immediate notice to the maximum extent practicable in writing and provide reasonably full particulars to the other party. Such obligations or conditions, so far as they are affected by such Force Majeure, shall be suspended during the continuance of any inability so caused, and NORTH AMERICAN POWER shall be relieved of liability and shall suffer no prejudice for failure to perform the same during the period. If NORTH AMERICAN

POWER claims suspension of obligations, we must in good faith attempt to mitigate and/or terminate the Force Majeure.
